TT'S NO JOKE EFEN TO TALK ABOUT BRIBING A JUDGE.

Borman Joseph Writes an Odd Letter to the Chief Jastice, but Proves that He Did Act as Counsel for the Woman Whose Lawyer Says She Bida't Know Herman Lawrer George H. Epstein of No. 206 Broadway, who made the sensational statement bere Justice Andrews in Supreme Court on Thursday that Lawyer Abraham Joseph had secured \$500 from his client, Barah Goldenson, on the representation that it was to go to Chief uatlee Simon M. Ehrlich of the City Courtwho rendered a decision favorable to her, said resterday that he had the affidavite of Mrs. Goldenson, her husband, and her son-in-law to prove that he was justified in making the statement. He declined to make the affidavits public. They will be submitted to Justice Andrews of the Supreme Court this morning, and Lawyer Joseph will present affidavits in re-

Justice Ehrlich was out of town on Thursday and did not hear of the matter until late in the evening. He was at his office early yester-day morning, however, and says he will certainly probe the matter to the bottom and take steps for the punishment of whoever is guilty. The Justice said he could not do anything until Judge Andrews had rendered a decision in the suit now pending, as any action he might take would hamper the proceedings in the Supreme Court. He found in his mail a letter from Herman Joseph, brother of Abraham. It was Herman, the Josephs say, to whom the \$500 fee was paid which the Goldston woman now says Abraham toid her was for Justice Ehrlich. The letter was as follows:

Isaac B. Potter of New York said that the delegates from forty different States could not be expected to agree upon any one method of foad building, coming as they did from different soils and climates, but he urged the value and the necessity of establishing State Beards.

A trench was dug for the fire and the mess they different states could not was cooked in true army style. This school will be held on certain days of each week durting the remainder of the season.

George C. Perkins of Massachusetts of the State Board of Highway Commissioners explained the situation in his Neate. It is the poly State which has a Board to promote good roads. Mr. Perkins said it would be important to rule out party pointes entirely in the appointment of highway officials, and that the offices should be filled on the ground of experience rather than political advantage.

The Committee on Order of Business, consisting of John C. Tipton of North Carolina, W. H. Crump of Kentucky, and N. J. Dowling of Minnesota, officed resolutions which were adopted. They favor the holding of a national conference every year; provide for an advisory committee of one member from each State and Territory to cooperate with all organizations of the friends of good roads, for the dissemination of literature, and to bring questions affecting good roads before the brate Legislatures; and cail for an executive committee of three. Levi K. Fuller, Governor of Vermont and the President of the conference, was made Chairman of both committees.

BACKESSACK'S FIREMEN AT ODDS. The Trouble Started with the Silk Stocking Element in " MeAllister's Own."

HACKENSICE, July G. There are two schleme in the Hackensack Fire Department. The en-tents cordials that marked intercourse be-tween the red shirts has been ruthlessly rent, and in its place a condition of chaotic confu-sion reigns. When, two years ago, "McAllis-ter's Own" (Bergen Hook and Ladder Company) held its anniversary, seeds of dissension were sown and watered with champagne and lager beer. The "McAllister" element of the com-pany, led by Walter Scott, a wealthy storage warehouse man; F. M. Paton, builder, and John J. Fink, a protoge of the late William Walter Phelps, Insisted that champagne was the only beverage fit for gentlemen to quaff, while the more humble members of the swell fire company voted for beer. Thereupon Fink and Scott ordered wine for themselves, the company retused to pay the bill, and the bon vivants, as Mr. Fink expressed it, "went down into their socks" for the price of their spark-ling beverage. This was the entering wedge. Discord spread insidiously, driving matheti-cism from the ranks, and the climax came this week, when the annual meeting was held to choose officers for another year. John In probe the matter to the bottom and take ps for the punishment of whoever is guilty.

Justice said he could not do anything till Judge Andrews had rendered a deciaion the suit now pending, as any action he suit now pending, as any action in the \$100 fee was paid which the Goldman now says Abraham toid her was Justice Ehrlich. The letter was as follows:

Justice Ehrlich sent for Herman Joseph, and the lawyer was soon at Chambers. He brought with him letters and other papers from Mra. Holdenson which proved conclusively that he had acted as counsel.

"If the character of these people were known there would be no need of saying a word in regard to their charge," said Lawyer Abraham Joseph, "I can assure you that I shall quickly prove that their story is made of whole elottic when I get the opportunity. Mrs. Goldenson had no idea she was going to win the suit against the hanks when Melvin's relatives turned up, and when we findly did succeed she was not satisfied with what also got. IN THE ATATE CAMP.

Instructions in Campaign Cooking-The Ninth to Enter Camp To-day.

STATE CAMP, PERSKILL, July 6.- The last week in which the camp is entirely devoted to the use of the separate companies ends to-day, when the tour of duty of the Ninth Regiment will begin. This week the comm seary officers of the Sixth Provisional Battalion were instructed in campaign cooking. To the quarter master of each company, grates, kettles and frying-pans had been issued, and to the men a kit consisting of a combination frringpan and plate, and a knife, fork, cup and spoon. On Tuesday afternoon the first test was made and rations for forty men were prepared. To each man was allowed eighteen ounces of pork, three ounces of beans, twenty-four ounces of potatoes, three ounces of coffee, four ounces of sugar, and twenty-four ounces of bread. The test was in charge of the quartermaster of the Sixth Battalien and of the post surgeon. The force in-cluded the quartermasters and surgeons of each company of the battalion, the hospital steward and his corps.

ing the remainder of the season.

Among the excursionists in camp on July 4 was the young wife of a private in one of the separate companies. Her husband was in the guard detail for the day, and had been posted as a sentry guarding a portion of the camp where visitors are not allowed. The wife after searching vainly for him in his company street at last discovered him at his post. She ran gladly to greet him, but stopped in dismay before a levelled bayonet.

"Halt! Who is there?" sternly challenged the sentry. be ore a levelled bayonet.

"Hait! Who is there?" sternly challenged the sentry.

"Why, John, don't you know me?" asked the wife in diamay.

"You can't come any nearer." The wife moved a step. "nait! Corporal of the guard, po-t seven." he shouted.

The corporal ran from the guard tent to find the wife confronted by her sentinel husband.

All three were from the same town, and the corporal knew the couple well.

"Nentry, what is the matter? That's your wife," he said in astonishment.

"I know it," said John, with a wink, "but I haven't had my own way since we were married, and i thought I'd have it now."

The sentry was soon relieved from duty, and was soon buying ice cream at the restaurant to atons for his crucity.

During muard mount this morning a rain storm struck the camp, and both the old and new guard were dienched. With the Ninth Heading and the present detail to morraw, will be a detail of twelve men from the engineering corps of the Seventy-Bret Regiment and twelve men from the First Brigade signal corps.

ROUNDSMAN GRAHAM'S FUNERAL

Home Was in Brooklyn, Near the Point Where He Was Drowned, The funeral of Roundsman Alexander Graham of the steamboat squad, who was found drowned last Wednesday in the East River off William street, Brooklyn, was held yesterday afternoon in St. Luke's Chapel, Hudeen arrest. The burial rite of the Episcopai Church was conducted by the Rev. George Hebbard. Among the many policemen present were cart. Aliaire and Sergeants Burns and Thomas of the steamboat acuad. The body was borne from the church by six policemens of the squad. The mystery aurrounding Graham's death has been partly explained. His friends were apparently unable to account for his presence in Brooklyn, as it was supposed that he lived at 183 Washington street, a few blocks from the sub-station where he was on duty. It has been ascortained that this was merely a nominal residence, and consisted only of a furnished room. Graham lived with his wife and family in South Brooklyn, near the point at which his body was discovered. The drowning, it is supposed, was accidental. William street, Brooklyn, was held yesterday
